

ABOUT ME

Kassidy Moreno

I am a marketing major and while I don't know exactly what I'm looking for after college, I'd love to go into PR, social media management, or anything I can take on creatively!

I don't have a large background with computers but I'd say I can figure out how to use certain softwares pretty fast! I use Canva practically everyday because I'm always creating graphics for my sorority! I'd love to learn more so I can strengthen my marketing abilities!

I am from San Jose, CA and I chose UNR because I fell in love with both the campus and the people! I love to play golf on the weekends and since I'm from the Bay, going to the beach is one of my favorite things as well. My favorite movie is 50 First Dates (or really any Adam Sandler movie) and I love all types of music but especially country!
